WT04R1

Makita Announces New 12V max CXT™ Tools

February 19, 2019, La Mirada, CA – Makita® U.S.A., Inc. introduced two new 12V max CXT™ Cordless tools, the 1/4" Impact Wrench (WT04) and the Inflator (MP100D). Makita's 12V max CXT Lithium-Ion system delivers performance in a compact size – and now there are over 30 solutions in the system.

12V max CXT™ Cordless 1/4" Impact Wrench

Available as a kit (WT04R1) or tool only (WT04Z), the 12V max CXT Cordless 1/4" Impact Wrench delivers power and speed for efficient fastening. Its compact size make the tool an ideal solution for working in tight spaces and overhead tasks. A compact and lightweight design reduces operator fatigue while the convenient 1/4" square drive serves a wide range of fastening applications. The WT04 features variable speeds (0-2,600 RPM & 0-3,200 IPM) and 44 ft.lbs. of Max Torque. A built-in LED light illuminates the work area.

Makita's entire line-up of impact drivers and impact wrenches, including the WT04, is engineered with a proprietary hammer and anvil impact mechanism that is manufactured using the best raw materials with the highest quality steel, as well as a unique heat-hardening process for maximum fastening and driving power.

12V max CXT™ Cordless Inflator

Conveniently top off car tires and easily inflate bicycle tires, sports balls, and more with the 12V max CXT Cordless Inflator. The Makita-built motor delivers up to 120 PSI. It features an auto-stop function when the desired pressure is reached, high-visibility pressure gauge display with backlight, and a 25-1/2" hose length for better reach. Its compact and lightweight design provide convenient storage and portability. The 12V max CXT Lithium-Ion Cordless Inflator is available as a bare tool (MP100DZ) or complete kit (MP100DWRX1).

The Power of Makita's 12V max CXT

CXT™ is the next generation in 12-volt max cordless tools. 12V max CXT™ gives users a more compact solution with more comfort and more capacity. The slide style lithium-ion batteries provide superior ergonomics and comfort, and allow go-to tools like the impact driver and drills to stand up on their own for added convenience. For even longer run time, the expanding 12V max CXT™ platform includes an efficient 4.0Ah battery (BL1041B). 12V max CXT™ Lithium-Ion batteries are engineered with a Battery Protection Circuit that protects against overloading, over-discharging and over-heating. These tools are part of the expanding 12V max CXT™ series, combining performance with superior ergonomics in a compact size.

Specifications

Model	WT04R1	WT04Z
Description	12V max CXT™ Cordless 1/4" Impact Wrench Kit	12V max CXT™ Cordless 1/4" Impact Wrench
Voltage	12V	12V
Battery	12V max CXT™ Lithium-Ion	12V max CXT™ Lithium-Ion
Battery Charge Time (mins.)	70	70
Impacts per Min. (variable speed)	0-3,200 IPM	0-3,200 IPM
No Load Speed (variable speed)	0-2,600	0-2,600
Max Torque	44 ft.lbs. / 60 N•m	44 ft.lbs. / 60 N•m
Overall Length	6-3/8"	6-3/8"
Weight	2.3 lbs.	2.3 lbs. (with battery, sold separately)
Includes	(2) 12V max CXT™ Lithium-Ion batteries, charger and tool bag	Tool only

Model	MP100DWRX1	MP100DZ
Description	12V max CXT™ Cordless Inflator Kit	12V max CXT™ Cordless Inflator
Voltage	12V	12V
Battery	12V max CXT™ Lithium-Ion	12V max CXT™ Lithium-Ion
Battery Charge Time	70	70
Power Type	Cordless	Cordless
Max Air Pressure (PSI)	120	120
Display Back Light	Yes	Yes
Dimensions (LxWxH)	9-1/4" x 2-15/16" x 6-13/16"	9-1/4" x 2-15/16" x 6-13/16"
Includes	(2) 12V max CXT™ Lithium-Ion batteries, charger and tool bag	Tool only
