3/8" Square drive fits most  
common automotive sockets.

For Immediate Release

## **The Makita 12V max CXT® Cordless Wrench Line-Up Expands**

The new WT05 3/8" Square Drive Impact Wrench has an ultra-compact design for tight spaces and overhead applications.

**March 19, 2019, La Mirada, CA** – Makita® U.S.A., Inc., manufacturer of high quality industrial power tools and accessories, announces the launch of the 12V max CXT® Lithium-Ion Brushless Cordless 3/8" Sq. Drive Impact Wrench (WT05). Ideal for maintenance, auto, and general use, the WT05 will be offered as a bare tool (WT05Z) and kit (WT05R1).

### **Impact Driver Enhancements**

The WT05 delivers power and speed in a compact size for efficient fastening and working in tight spaces and overhead applications. The 12V max CXT 3/8" Sq. Drive Impact Wrench weighs only 2.2 lbs. (with 2.0Ah battery) for reduced fatigue. Variable 2-speed (0-2,400 RPM & 0-3,600 IPM) serves a variety of fastening applications. Makita's BL™ Brushless Motor delivers 120 ft.lbs. of Max Torque and 210 ft. lbs. of Nut-Busting Torque. Auto-Stop Mode stops rotation and impact when fastener is loosened adequately, which helps prevent over-loosening and dropped fasteners.

### **12V max CXT®**

With Makita 12V max CXT Lithium-Ion slide-style batteries, users get superior balance and ergonomics over pod-style batteries. For longer run time, 12V max CXT cordless tools are also compatible with the 12V max CXT Lithium-Ion 4.0Ah battery (BL1041B, sold separately). 12V max CXT Lithium-Ion batteries are engineered with a Battery Protection Circuit that protects against overloading, over-discharging and over-heating. It's part of the expanding 12V max CXT series, combining performance with superior ergonomics in a compact size.
