FOR IMMEDIATE RELEASE

Makita Announces New 18V LXT® Cordless Fan, L.E.D. Flashlight, and Job Site Radio

July 26, 2019, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools and accessories, is introducing a new 18V LXT® Lithium-Ion Cordless Fan, Flashlight, and Job Site Radio. All three solutions are powered by Makita® 18V LXT batteries, the same fast-charging batteries that power over 225 solutions in the expanding LXT System.

18V LXT® Lithium-Ion Cordless 9-1/4" Fan, Tool Only (DCF203Z)

The DCF203Z provides strong air flow and superior run time. Users can get up to 16 hours of continuous airflow (on low speed with 5.0Ah battery sold separately). The fan has three speed settings and an oscillation selector for optimal air control. It oscillates 45° left and right and can manually tilt 90° up and 45° down. For convenience, users can set an automatic timer with 1, 2, and 4 hour power-off options. The fan is designed for quiet operation with a reduced wind noise level. An AC Adapter (SE00000681) is included for optional corded operation.

18V LXT® Lithium-Ion Cordless L.E.D. Flashlight, Flashlight Only (DML815, DML815B)

An ideal addition to any toolbox or workshop, DML815(B) provides light for up to 23 hours with a 5.0Ah LXT battery (sold separately). The high-luminance 4 L.E.D. flashlight provides 160 lumens in a sharp, round spotlight. The flashlight head pivots to 12 positions to direct the light where needed. The flashlight is compact at 10-3/4" long and only 1.95 pounds with battery (sold separately). A rubberized soft grip provides increased comfort and a metal hang hook keeps the flashlight handy on the jobsite. DML815 features a teal and black dress, while DML815B is all black.

18V LXT® / 12V max CXT® Lithium-Ion Cordless Bluetooth® Job Site Radio, Tool Only (XRM09B)

Listen to music of your choice on or off the job site with our new 18V LXT® / 12V max CXT® Cordless Bluetooth® Radio. The new radio delivers rich, full stereo sound from two powerful 3.5" side-firing speakers and one 4" subwoofer. Users can listen to the digital tuner, a mobile device wirelessly connected via Bluetooth, or an MP3 player via the auxiliary port. The lighted dial changes colors relative to the sound mode selected. Users can select seven sound modes for different genres of music.

XRM09B offers versatility in power sources. Compatible with a 12V max CXT, 14.4V, and 18V LXT Lithium-Ion Batteries, this radio offers more flexibility for users. The radio runs up to 18 hours with an 18V LXT 5.0Ah battery (sold separately). An included AC Adapter (SE00000681) offers corded operation.

Like previous Makita Radios, XRM09B is durable to withstand harsh jobsite conditions. The radio features a dust- and water-resistant construction (IP65 rated), elastomer bumpers and die-cast aluminum guards for increased durability. The radio weighs about 12 lbs. with battery (sold separately). For operator convenience, the radio has a carry handle, which also houses an integrated antenna.

18V LXT® System

Makita LXT Cordless System, the world's largest cordless tool system powered by 18V lithium-ion slide-style batteries, takes a user from power tools to outdoor power equipment to get the job done. Makita 18V LXT Batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.

12V max CXT®

CXT is the next generation in 12-volt max cordless tools. 12V max CXT gives users a more compact solution with more comfort and more capacity. The slide style lithium-ion batteries provide superior ergonomics and comfort. For even longer run time, the expanding 12V max CXT platform includes an efficient 4.0Ah battery (BL1041B). 12V max CXT Lithium-Ion Batteries are engineered with a Battery Protection Circuit that protects against overloading, over-discharging and over-heating. These tools are part of the expanding 12V max CXT Series, combining performance with superior ergonomics in a compact size.

Specifications

Model	DCF203Z
Description	18V LXT® Lithium-Ion Cordless 9-1/4" Fan, Tool Only
Battery	18V LXT® Lithium-Ion

Power Type	Corded and Cordless Operation
Speed Settings	3
Run Time (hours)	16
Dimensions (LxWxH)	5-1/2" x 13" x 16-1/2"
Net Weight (with Battery)	5.6 lbs. (battery sold separately)
Includes	Tool, AC Adapter

Model	DML815	DML815B
Description	18V LXT® Lithium-Ion Cordless L.E.D. Flashlight, Flashlight Only	18V LXT® Lithium-Ion Cordless L.E.D. Flashlight, Flashlight Only
Color	Teal and Black	Black
Battery	18V LXT® Lithium-Ion	18V LXT® Lithium-Ion
Lumens	160	160
Bulb	4 LED	4 LED
Overall Length	10-3/4"	10-3/4"
Net Weight (with Battery)	1.95 lbs. (battery sold separately)	1.95 lbs. (battery sold separately)
Includes	Tool, Hook Band Set	Tool, Hook Band Set

Model	XRM09B
Description	18V LXT® / 12V max CXT® Lithium-Ion Cordless Bluetooth® Job Site Radio, Tool Only
Voltage	12-18V
Digital Turner	Yes
MP3 Capable	Yes
Auxiliary Port	Yes
Power Type	Corded and Cordless Operation
Dimensions (LxWxH)	10-1/2" x 6-1/2" x 11-5/8"
Net Weight (with Battery)	12.18 lbs. (battery sold separately)
Includes	Tool, AC Adapter, (2) AA Batteries
