FOR IMMEDIATE RELEASE

The Makita® 18V X2 LXT® Lawn Mower (XML05) is designed for residential use with a plastic deck for easy pushing and compact deck for detailed landscaping.

## **Makita Launches New Powerful LXT® Brushless Residential Lawn Mower**

**August 18, 2020, La Mirada, CA** – Makita U.S.A., Inc., the innovation leader in outdoor power equipment, power tools, and accessories, announced the 18V X2 (36V) LXT® Cordless 17" Residential Lawn Mower (XML05). The compact 18" deck is ideal for detailed landscaping and the 17" cutting width provides optimal performance.

The XML05 is powered by two 18V LXT Batteries and has a Makita-built motor that delivers up to 3,600 RPM for faster cutting.

An ergonomic plastic deck weighs less, providing reduced force to push the mower. The lawn mower is capable of mulching and bagging debris. A single lever adjusts the cutting height (13/16" to 3"). Other features include a soft start for smooth start-ups and longer gear life, ball bearings in the wheels for a smoother drive, and a rubberized soft grip handle for comfort.

### **Technology**

For added durability, Makita's Extreme Protection Technology (XPT™). XPT is a series of integrated seals engineered to channel away dust and water for increased durability. Makita® Products equipped with XPT are engineered for increased durability and longer tool life.

### **18V LXT® System**

Makita LXT Cordless System, the world's largest cordless tool system powered by 18V lithium-ion slide-style batteries, takes a user from power tools to outdoor power equipment to get the job done. Makita 18V LXT Batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.

### **Benefits of Cordless Outdoor Power Equipment**

Makita LXT Cordless Power Equipment eliminates the hassles of gas with zero emissions, lower noise, and reduced maintenance. The cordless lawn mowers operate at a lower noise level, providing user comfort and preventing a disruption for neighbors or nearby businesses. With no

need for gas or oil, the battery-powered lawn mowers require less maintenance and have zero emissions.
