FOR IMMEDIATE RELEASE

The 18V LXT® Grease Gun delivers 10,000PSI of max pressure and has a max flow rate of 10 oz per minute so users can work faster.

Makita Launches 18V LXT® Grease Gun

The highly anticipated cordless grease gun delivers up to 10,000 PSI of maximum pressure

May 1, 2021, La Mirada, CA – Makita U.S.A., Inc., the leader in cordless power tool innovation, is excited to announce the 18V LXT® Grease Gun (XPG01). Ideal for farm, fleet, and construction equipment, the grease gun delivers 10,000 PSI of maximum pressure.

The XPG01 has a maximum flow rate of 10 oz. per minute so users can work more efficiently. Grease flow is controlled with two speed modes, low speed (high-pressure) and auto-speed. Modes can be adjusted by the speed selector with additional control through the variable speed trigger.

“What makes the Makita grease gun stand out is the Auto-Speed mode,” said Carlos Quintana, Senior Product Manager, Cordless Products. “Auto-Speed mode automatically switches the flow rate to match the higher pressure of the part being greased based on resistance. This means more efficient greasing so users can get the job done faster and move on to the next zerk fitting.”

The XPG01 features a 47-1/4” flexible hose (48-inch with coupler) for greater access to reach fittings. It also has an air bleed valve to assist in faster pump priming, and built-in L.E.D. lights to locate hard to see grease fittings. A lock-on button provides convenience during longer work periods, and the lock-off will prevent the tool from accidental start-ups. The grease gun is designed to stand-up on its own or can be used with a shoulder strap for user convenience.

For improved tool performance and extended battery life, the grease gun features Star Protection Computer Controls™. Star Protection is communication technology that allows the Star Protection-equipped tool and battery to exchange data in real time and monitor conditions during use to protect against overloading, over-discharging and overheating.

18V LXT® System

Makita LXT Cordless System, the world's largest cordless tool system powered by 18V lithium-ion slide-style batteries, takes a user from power tools to outdoor power equipment to get the job done. Makita 18V LXT Batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.

Specifications

Model	XPG01SR1	XPG01Z
Description	18V LXT® Grease Gun Kit (2.0Ah)	18V LXT® Grease Gun, Tool Only
Max Pressure	10,000 PSI	10,000 PSI
Max Flow Rate	10 fl. oz./min	10 fl. oz./min
Lock-On Switch	Yes	Yes
L.E.D. Light	Yes	Yes
Battery	18V LXT Lithium-Ion	18V LXT Lithium-Ion
Weight (with battery)	11.3 lbs.	11.3 lbs. (battery not included)
Includes	Tool, 18V LXT Charger, 18V LXT 2.0Ah Battery, 400g Grease Barrel, 47-1/4" Flexible Grease Gun Hose with Coupler, Tool Case	Tool, 400g Grease Barrel, 47-1/4" Flexible Grease Gun Hose with Coupler

About Makita

Makita is a worldwide manufacturer of industrial power tools, pneumatics and power equipment, and offers a wide range of industrial accessories. Makita U.S.A., Inc. is located in La Mirada, California, and operates an extensive distribution network throughout the U.S.A. With 50 years in the United States and over 100 years worldwide, Makita utilizes experience and expertise to manufacture best-in-class solutions.
