FOR IMMEDIATE RELEASE

12V max CXT Self-Leveling 360° 3-Plane Lasers are available with red beam (SK700D) and green beam (SK700GD) and provide sharp laser lines with +/- 1/16" at 33' for best-in-class accuracy.

MAKITA LAUNCHES NEW SELF-LEVELING 360° 3-PLANE LASERS

New Multi-Directional Red and Green Lasers Offer Accurate Lines for Plumb, Level, Align, and Square Applications

October 12, 2021, La Mirada, CA – Makita U.S.A., Inc., the leader in cordless power tool innovation, announced the release of 12V max CXT® Self-Leveling 360° 3-Plane Lasers with red beam (SK700D) and green beam (SK700GD). These lasers are ideal for the layout phase of construction and a variety of trades, including HVAC, drywall, MEP, carpentry, deck building, masonry, and many more.

Multi-directional lasers that provide a full 360° plane deliver the ability to apply a reference position to all four surfaces within a room. These lasers offer three 360° laser planes, one horizontal and two vertical planes, which provides 6 cross-points. This allows the user to perform plumb, level, align and square applications without having to reposition the laser. The SK700D and SK700GD provide sharp laser lines with +/- 1/16" at 33' for best-in-class accuracy. The SK700D has a visibility range of 82' and the SK700GD has a visibility range of 115', but both can be detected up to 230' with a detector.

The lasers also feature a fine vertical line adjustment knob for increased accuracy and an eccentric base to adjust the vertical line while maintaining the plumb point position. The integrated pendulum lock enables slope or incline applications by deactivating the self-leveling function.

A simplified two-button interface provides easy operation of the lasers. A user can adjust the brightness of the laser, a low setting conserves battery power and extends run time. The SK700D red laser provides up to 22 hours of continuous run time with a 12V max CXT 4.0Ah Battery, while the SK700GD green laser provides up to 14 hours.

For added protection, these lasers are dust and water resistant with IP54 rating, have a rubberized housing over-mold, and highly protected laser windows. A magnetic bracket with integrated ¼” and 5/8” threads secures the laser to metal surfaces, wood surfaces, or tripods.

12V max CXT® System

The CXT System provides the utmost compact solution with superior comfort and capacity. The superior ergonomics allow easy handling. The slide-style battery design offers improved balance and lets tools stand up. Select 12V max CXT Products are equipped with efficient brushless motors for longer run time, increased power and speed, and longer tool life. 12V max CXT Products provide professional performance with superior ergonomics and comfort.

Specifications

Model	SK700D	SK700DNAJ	SK700GD	SK700GDNAJ
Description	12V max CXT® Self-Leveling 360° 3-Plane Laser, Tool Only	12V max CXT® Self-Leveling 360° 3-Plane Laser Kit	12V max CXT® Self-Leveling 360° 3-Plane Laser, Tool Only	12V max CXT® Self-Leveling 360° 3-Plane Laser Kit
Beam Color	Red	Red	Green	Green
Beam Projection	360°	360°	360°	360°
Beam Direction	1 horizontal / 2 vertical	1 horizontal / 2 vertical	1 horizontal / 2 vertical	1 horizontal / 2 vertical
Point Beam	6 cross point	6 cross point	6 cross point	6 cross point
Line Accuracy	1/16” at 33’	1/16” at 33’	1/16” at 33’	1/16” at 33’
Visible Range	82’	82’	115’	115’
Range w/ Detector	230’	230’	230’	230’
Protective Rating	IP54	IP54	IP54	IP54
Pendulum Lock	Yes	Yes	Yes	Yes
360 Swivel Motion	Yes	Yes	Yes	Yes
Fine Adjustment	Yes	Yes	Yes	Yes
Eccentric Adjustment	Yes	Yes	Yes	Yes
Run Time	22 hours	22 hours	14 hours	14 hours
Includes	Laser, Magnetic Target Card, Magnetic L-Adapter, Storage Pouch	Laser, Magnetic Target Card, Magnetic L-Adapter, Interlocking Case, Inlay, 12V max CXT 2.0Ah Battery, Charger	Laser, Magnetic Target Card, Magnetic L-Adapter, Storage Pouch	Laser, Magnetic Target Card, Magnetic L-Adapter, Interlocking Case, Inlay, 12V max CXT 2.0Ah Battery, Charger

About Makita

Makita is a worldwide manufacturer of industrial power tools, pneumatics and power equipment, and offers a wide range of industrial accessories. Makita U.S.A., Inc. is located in La Mirada, California, and operates an extensive distribution network throughout the U.S.A. With 50 years in the United States and over 100 years worldwide, Makita utilizes experience and expertise to manufacture best-in-class solutions.
