FOR IMMEDIATE RELEASE

The 18V LXT High-Pressure Inflator (DMP181) delivers 160 PSI to easily top off truck and car tires, and inflate bike tires, sports balls, and more.

MAKITA ANNOUNCES A NEW INFLATOR FOR THE LXT® SYSTEM

New high-pressure inflator delivers up to 160 PSI

December 15, 2021, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools and accessories, has announced the new 18V LXT® Cordless High-Pressure Inflator (DMP181). The powerful, high-volume pump offers faster inflation to quickly and easily top-off light truck tires and car tires, and inflate bike tires, sports balls and more.

The purpose-built motor delivers up to 160 PSI. It features an auto-stop function which automatically stops inflation when a pre-set air pressure is reached. Convenience features include a high-visibility gauge display with backlight, a 25-1/2" hose length for better reach, and a built-in L.E.D. light to illuminate the work area. Its compact and lightweight design provide easy storage and portability.

18V LXT® System

Makita® LXT Cordless System, the world's largest cordless tool system powered by 18V lithium-ion slide-style batteries, takes a user from power tools to outdoor power equipment to get the job done. Makita 18V LXT Batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.

The 18V LXT Cordless Inflator is currently available as a bare tool (DMP181ZX). For more information, please visit makitatools.com
