FOR IMMEDIATE RELEASE

The 18V LXT® Cordless High Speed Blower/Inflator is a powerful and versatile tool that can clear debris from work surfaces and tools, as well as inflate or deflate objects. It features a Makita-built brushless motor that delivers 447 MPH and 39 CFM.

NEW MAKITA CORDLESS 18V LXT® HIGH SPEED BLOWER/INFLATOR FOR FAST CLEANUPS

Useful and versatile tool provides solution for debris removal and inflation/deflation applications

June 15, 2023, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools and accessories, has released the 18V LXT® High Speed Blower/Inflator, Tool Only (XSA01Z). The XSA01Z is part of the LXT® System with 325+ solutions in 2023 that are all powered by the same fast charging 18V LXT® batteries.

“The High-Speed Blower/Inflator is a versatile tool that can effortlessly clear debris as well as inflate or deflate objects with precision,” said Tyler Brown, Associate product manager for lifestyle and expansion, Makita U.S.A. Inc. “This remarkable tool is the missing piece you never knew your tool collection needed as it fits in with the over 325 tools that make up the 18V | 36V LXT system.”

Performance and Versatility

The Blower/Inflator is a versatile tool that can both inflate and deflate with precision, as well as clear debris and dust from work surfaces and tools. It features a Makita-built brushless motor that delivers up to 447 MPH and 39 CFM. With 5 included nozzles and 4 digitally controlled speeds, the Blower/Inflator has a wide range of applications. It provides continuous operation of up to 55 minutes with a fully charged 18V LXT® 6.0Ah battery (battery not included).

Convenience Features

The Blower/Inflator features a rubberized soft grip that provides increased comfort on the job. With a compact design, it is ideal for working in tight spaces with an overall length of just 7". It features an in-line fan design that provides better tool balance and improved ergonomics. It also features a filter on the blower intake that reduces dust being blown through the blower.
