FOR IMMEDIATE RELEASE

The 18V LXT® offers users a cordless solution that delivers power and speed in a compact design that is an ideal solution for a range of materials and cutting applications.

MAKITA RELEASES NEW 18V LXT® BRUSHLESS 3" CUT OFF TOOL

New cordless cutting tool offers users power and speed in an ultra-compact size

September 13, 2023, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released the 18V LXT® Brushless 3" Cut-Off Tool (XCM01), offering users a cordless solution that delivers power and speed in a compact design that is an ideal solution for a range of materials and cutting applications.

"The 3-Inch Cut-Off Tool features a slim and ergonomic design that allows users to access the most hard-to-reach places, all while delivering speed, power, and control," said Tyler Brown, associate product manager for outdoor power equipment, Makita U.S.A. Inc. "The tool comes with three blade styles: diamond blades for tackling tough tile and concrete, cut off wheels for rebar, sheet metal, and hard pipe, and a multipurpose blade for everything in between. From automotive repair shops to plumbers and HVAC technicians, this tool is going to be a staple in your tool kit. Professionals and hobbyists alike will love the versatility and performance it offers."

Faster Cuts, More Power

The 3" Cut-Off Tool features a powerful Makita-built brushless motor that delivers 20,000 RPM for faster cutting through a range of materials. The electronically controlled brushless motor efficiently uses energy to match torque and RPM to the changing demands of the application. The brushless motor optimizes battery usage for up to 50% longer run time per charge.

Solutions for Many Industries

With power and portability in mind, the 3" Cut-Off Tool is an ideal solution for plumbers and HVAC installers, tiling and demolition needs, as well as for use in automotive repair. The XCM01 utilizes the wide range of Makita 3" Cutting Blades that are available including the Continuous Rim Diamond Blade (D-77825) for tile, ceramic, or porcelain cutting applications, the Carbide Grit Cut-Off Wheel (D-74843) for use in cutting drywall, plasterboard, PVC and more. The 3" Cut Off Tool also can utilize the Makita Abrasive Cut-Off Wheel which is ideal for cutting wood, stainless steel, copper, and many others.

Convenience Features

Convenience features include an ergonomic design for one-handed operation, a conveniently located switch for easy forward and reverse operation, and an L.E.D. light that illuminates the work area. The Cut-Off Tool also includes a tool-less dust collection cut-off guard that installs easily and allows up to 5/8" cuts

when installed. The Cut-Off tool is ergonomically designed for one-handed operation. It weighs only 2.6lbs with a battery installed (sold separately) for reduced operator fatigue.

Makita® LXT® System

The new 18V LXT® Brushless 3" Cut-Off Tool is part of the LXT® System, the world's largest cordless tool system powered by 18V batteries with 325+ Products in One System. The LXT® System includes an expansive range of 18V and 36V mowers, trimmers, blowers, chain saws, and more, as well as a comprehensive range of cordless tools, vacuums, lighting, radios, heated jackets, and more – all powered by fast-charging 18V LXT® batteries.
