## FOR IMMEDIATE RELEASE

*Makita has released a new the new 40V max XGT® 25-1/2" Vacuum Sweeper (GSV01) that delivers a powerful and portable cleaning solution that is engineered for a variety of dust and waste materials.*

### **MAKITA RELEASES NEW XGT® VACUUM SWEEPER** Fast and efficient solution for cleaning small and large dry debris

**October 2, 2024, La Mirada, CA** – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released a new 40V max XGT® 25-1/2" Vacuum Sweeper (GSV01) that delivers a powerful and portable cleaning solution that is engineered for a variety of dust and waste materials.

#### **Fast Efficient Cleaning**

The 25-1/2" Vacuum Sweeper is a fast and efficient cleaning solution that is 11-times faster than a broom. It features a large 25-1/2" capacity for cleaning small and large dry debris materials. It cleans up to 93,000 square feet using two fully charged 40V max XGT® 8.0Ah batteries. The GSV01 features a 3-brush design engineered for cleaning a variety of dust and waste materials.

#### **Multiple Speeds, Accessible Controls**

The GSV01 is engineered with on-board operation controls for on/off, suction, main brush speed selection, L.E.D light, Automatic Filter Cleaning, and Battery Charge Indicator. There are two main brush speeds including Standard Mode, and Quiet Mode for added user convenience.

#### **Height Adjustments, Lower Weight**

The Vacuum Sweeper gives the user versatility with a height adjustment dial that allows the main brush to capture small dust materials and debris up to a 19.6" plastic bottle. Users can select a side brush height adjustment dial with a simple lever. It features a lightweight and portable design and is over 38% lighter than other sweepers at just 65 lbs.

#### **Convenience Features**

Convenience features include L.E.D. lights that illuminate the cleaning area, it has a folding handle for compact upright storage, and a large 6.3-gallon dry collection capacity.

#### **XGT®: One System of Cordless Equipment and Tools**

The new Floor Sweeper is part of Makita XGT®, an expanding system of 40V max and 80V max cordless equipment and tools. XGT® gives users one system, from core handheld tools like drills and impact drivers to equipment-grade products including high-capacity saws, rotary hammers, and power cutters – all powered by 40V max XGT® batteries. The expanding XGT® System offers 125+ products in 2024.
