FOR IMMEDIATE RELEASE

Makita has released two new 40V max XGT® woodworking tools. The new 6" Random Orbit Sander and the 2-1/4 Maximum HP Plunge Router are engineered to provide better results in fine woodworking applications.

MAKITA RELEASES TWO NEW 40V MAX XGT® WOODWORKING TOOLS

Tools offer superior performance in fine woodworking applications

October 2, 2024, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released two new tools on the XGT® platform giving woodworking professionals cordless tools that offer superior results when compared to their corded equivalent versions.

"Makita has a deep legacy in woodworking tools and these two new tools from the expanding XGT® system give pros more options to get the job done," said Mario Lopez, director of product management, marketing product development, Makita U.S.A. Inc. "The new 40V max XGT® 6" Random Orbit Sander gives users a powerful sanding tool that has an ultra-low profile for fitting in tight spaces. The 40V max XGT® 2-1/4 Maximum HP Plunge Router gives users more power, less weight, and plunge cutting capabilities for more applications in fine woodworking."

XGT®: One System of Cordless Equipment and Tools

These new woodworking tools are part of Makita XGT®, an expanding system of 40V max and 80V max cordless equipment and tools. XGT® gives users one system, from core handheld tools like drills and impact drivers to fine woodworking tools – all powered by 40V max XGT® batteries. The expanding XGT® System will offer 125+ products in 2024.

GOB01CZ: The 40V max XGT® 6" Random Orbit Sander (GOB01) delivers up to 40% more power than an equivalent pneumatic sander but without the hassles of a cord or hose. It features variable speed control, a swirl free finish, and it was engineered to have an ultra-low profile with superior ergonomics.

GPR01Z: The 40V max XGT® 2-1/4 Maximum HP Plunge Router (GPR01) delivers the power of a 2-1/4 HP corded router, with up to 30% less weight when compared to corded*. It features variable speed control, up to 2-3/8" plunge capacity, and soft start feature that allows for smoother start-ups and better accuracy.

*Compared to the Makita RP2301FC

Specifications

Description	40V max XGT® Brushless Cordless 6" Random Orbit Sander (GOB01CZ Tool Only)
Form Factor:	40V max XGT®
Pad Size (round):	6"
Abrasive Disc Size:	6"
Orbits Per Minute (variable speed):	6,000 - 10,000 OPM
Orbit Diameter:	3/16"
Variable speed dial:	Yes
Vibration (m/s ²):	3.2

Description	40V max XGT® Brushless Cordless 2-1/4 Maximum HP Plunge Router (GPR01Z, Tool Only)
Form Factor:	40V max XGT®
No Load Speed (variable speed):	8,000 - 25,000 RPM
Plunge Capacity:	2-3/8"
Variable speed dial:	Yes
Tool-less depth adjustment:	Yes
Collet:	1/2"
Net Weight (with battery, sold separately):	9.5 lbs.
