FOR IMMEDIATE RELEASE

Makita has released a new 18V LXT® Brushless 4-Speed Impact Driver (XDT20). The new Impact Driver sets new standards with multiple speed sections for precise fastening control with a wide range of applications.

MAKITA RELEASES NEW MULTI-SPEED LXT® IMPACT DRIVER

New Impact Driver offers precise fastening control within a wide range of applications

November 1, 2024, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released the 18V LXT® Brushless 4-Speed Impact Driver (XDT20). The new Impact Driver sets new standards with multiple speed sections for precise fastening control with a wide range of applications.

Compact Form, High Power

The Impact Driver features Assist Mode (A-mode) which helps eliminate "screw cam-out" and "cross threading" by driving at low speed until tightening begins. It also features two Tightening Modes (T-mode) for faster tightening of self-drilling screws in thick or thin gauge metal that helps prevent damage to the screw or workpiece. The XDT20 delivers industry-leading performance in a compact and ergonomic design.

Convenience Features

The impact driver combines power, speed, and precision. A one-touch 4-speed power selector button is positioned on the rear of the impact driver, which enables one-handed speed changes. It includes reverse rotation auto-stop mode which stops rotation and impact when the fastener is loosened adequately to help prevent over-loosening and dropped fasteners.

Makita® LXT® System

The new Articulating Pole Saw is part of Makita's expanding LXT® system, the world's largest cordless tool system powered by 18V Lithium-Ion batteries. Makita 18V LXT® batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.

Specifications

Description	18V LXT® Brushless Quick-Shift Mode™ 4-Speed Impact Driver (XDT20)
Form Factor (LXT):	18V LXT®
Hex Shank:	1/4"
No Load Speed (var. 4 spd.):	0 - 1,100 / 0 - 2,100 / 0 - 3,200 / 0 - 3,600 RPM
Impacts Per Minute (var. 4 spd.):	0 - 1,000 / 0 - 2,600 / 0 - 3,600 / 0 - 3,800 IPM
Maximum Torque (in.lbs.):	1,590 in.lbs.
Speed power selection:	4
Battery:	18V LXT® Lithium-Ion
Overall Length:	4-1/2"
Net Weight (with battery):	3.3 lbs.

About Makita
