*The new 40V max XGT® Compact Blower (GBU02) is an ideal solution for pros looking for a clean-up solution for job sites and workshops.*

## FOR IMMEDIATE RELEASE

### MAKITA RELEASES NEW 40V MAX XGT® COMPACT BLOWER

New Compact Blower is an ideal clean-up solution for job sites and workshops

**June 03, 2025, La Mirada, CA** – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released a compact, handheld clean-up solution that delivers a powerful blowing force of up to 127 CFM and 221 MPH.

It's powered by the same fast-charging 40V max batteries that are compatible with 170+ XGT® products.

"Makita engineered the new Compact Blower with the working pro in mind, users like finish carpenters and remodelers who are constantly cleaning up sawdust and debris between tasks can really benefit by this handy tool," said Stevan Garcia, sr. product manager, outdoor power equipment. "It's compact enough to keep in the truck or trailer, but powerful enough to clear a site fast."

#### Cordless Clean-Ups

The Compact Blower is an ideal solution for users looking for faster clean-ups and features a leading power-to-size ratio. The GBU02Z is compact at only 20-1/4" long, making it ideal for clearing workspaces and many other clean-up applications. It features three speed options for extended run time or added power. The Compact Blower features up to 30 minutes of run time on High on a single charge of a 40V XGT® 4.0Ah battery (battery not included).

#### Convenience Features

Convenience features include a rubberized soft grip handle for increased operator comfort, an 8" rubber nozzle for surface protection and added durability during storage, and the GBU02 weighs only 2.9 lbs. without battery (battery not included).

#### XGT®: One System of Cordless Equipment and Tools

The new Compact Blower is part of Makita XGT®, an expanding system of 40V max and 80V max cordless equipment and tools. XGT® gives users one system, from core handheld tools like drills and impact drivers to equipment-grade products including high-capacity saws, rotary hammers, and power cutters – all powered by 40V max XGT® batteries.
