FOR IMMEDIATE RELEASE

Capture up to 4 gallons of dust with the new 18V X2 LXT Cordless Dust Extractors/Vacuums (models XCV13Z, XCV14Z, XCV15ZX, and XCV16ZX).

Makita Announces Four New 4-Gallon 18V X2 LXT Cordless Dust Extractors/Vacuums

These high capacity extractors/vacuums are optimized for dust management performance.

July 30, 2019, La Mirada, CA – Makita U.S.A., Inc., manufacturer of innovative cordless tools and accessories, is introducing four new higher capacity dust extractors/vacuums. The new 18V X2 LXT® Lithium-Ion (36V) Cordless 4 Gallon Dust Extractors and Vacuums (XCV13Z, XCV14Z, XCV15ZX, and XCV16ZX) offer versatility and convenience on the jobsite.

All four dust extractors feature a variable speed control dial to match the speed to the application, large rubber bumpers to prevent damage to the work environment, an oversized on-off switch for convenience and quick-release metal latches for easy removal and disposal of debris from the canister. Rear casters have locking levers to prevent the vacuum from moving. Dual L.E.D. battery indicators show the charge level for each 18V LXT lithium-ion battery.

Each model has a unique combination of features so users can find a solution that works best:

- **XCV13Z** - The 18V X2 LXT (36V) Cordless/Corded 4 Gallon HEPA Filter Dry Dust Extractor/Vacuum, Tool Only is a hybrid model, offering both cordless and corded power options for versatility and convenience. Corded power delivers 127 CFM and 96" water lift, while two 18V LXT Lithium-Ion Batteries provide 74 CFM and 36" water lift. Two anti-static hoses and two tubes are included for extended reach.
- **XCV14Z** - The 18V X2 LXT (36V) Brushless Cordless 4 Gallon HEPA Filter Wet/Dry Vacuum, Tool Only can capture wet and dry debris. Small dust particulates are captured in an efficient cloth filter. Powered by two 18V LXT® batteries for 36V power and run-time, the XCV14Z delivers up to 75 minutes of continuous run time on low setting and 40 minutes on high setting. The powerful Makita-built BL™ Brushless Motor delivers 74 CFM and 39" water lift of suction on battery operation.

- **XCV15ZX** - The 18V X2 LXT (36V) Brushless Cordless 4 Gallon HEPA Filter Dry Dust Extractor, Tool Only has a 3-stage filtration system engineered for efficient cleaning and to extend the life of the main filter. The system consists of a Pre-Filter Bag (captures larger dust particulates), Damper Filter (captures much smaller particulates) and Main Filter (captures micro particles). Using two 18V 5.0Ah batteries, the dry dust extractor delivers up to 75 minutes of continuous run time on low setting and 40 minutes on high setting. The powerful Makita-built motor delivers 74 CFM and 39" water lift of suction on battery operation.
- **XCV16ZX** - The 18V X2 LXT (36V) Brushless Cordless 4 Gallon HEPA Filter Dry Dust Extractor, AWS™, Tool Only also features a 3-stage filtration system engineered for efficient cleaning and to extend the life of the main filter. This dry dust extractor features Auto-Start Wireless System (AWS™), which utilizes Bluetooth™ technology for wireless power-on/off communication between the tool and dust extractor.

For contractors seeking an OSHA-compliant solution, the XCV13Z, XCV14Z, and XCV16ZX can be added to create an OSHA-compliant system. Visit the best online app at www.makitatools.com/dust-management to create a custom OSHA-compliant system.

18V LXT® System

Makita® LXT Cordless System, the world's largest cordless tool system powered by 18V lithium-ion slide-style batteries, takes a user from power tools to outdoor power equipment to get the job done. All four of these dust extractors are part of this system, using the same batteries that work in Makita 18V LXT Power Tools. Makita 18V LXT Batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.

Star Protection Computer Controls™

For improved tool performance and extended battery life, Makita created Star Protection Computer Controls™. Star Protection is communication technology that allows the Star Protection-equipped tool and battery to exchange data in real time and monitor conditions during use to protect against overloading, over-discharging and overheating. For increased versatility, the tool can also be powered by Makita® 18V LXT® and Compact Lithium-Ion batteries with the star symbol indicating Star Protection inside.

Specifications

Model	XCV13Z	XCV14Z	XCV15ZX	XCV16ZX
Description	18V X2 LXT® Lithium-Ion (36V) Cordless/Cordless 4 Gallon HEPA Filter Dry Dust Extractor/Vacuum, Tool Only	18V X2 LXT® Lithium-Ion (36V) Brushless 4 Gallon Wet/Dry Vacuum, Tool Only	18V X2 LXT® Lithium-Ion (36V) 4 Gallon HEPA Filter Dry Dust Extractor, Tool Only	18V X2 LXT® Lithium-Ion (36V) 4 Gallon HEPA Filter Dry Dust Extractor, AWS™, Tool Only
Container Size (gal)	4	4	4	4

Airflow (CFM)	127	74	74	74
Static Lift	96"	39"	39"	39"
Continuous Use	65 min.	75 min	75 min.	75 min.
Battery	18V LXT Lithium-Ion (Sold Separately)	18V LXT Lithium-Ion (Sold Separately)	18V LXT Lithium-Ion (Sold Separately)	18V LXT Lithium-Ion (Sold Separately)
HEPA Filter	Yes	No	Yes	Yes
AWS	No	No	No	Yes
Working Sound Level	64 dB(A)	66 dB(A)	66 dB(A)	66 dB(A)
Net Weight (with Battery)	22.6 lbs.(Battery sold separately)	17.4 lbs. (Battery sold separately)	19 lbs. (Battery sold separately)	19 lbs. (Battery sold separately)
Power Type	Corded and Cordless	Cordless	Cordless	Cordless
Includes	Tool, (2) Anti-Static Hoses, Curved Pipe, Straight Pipe, Floor Nozzle, Crevice Nozzle, Tool Cuff Adapter (22mm), Tool Cuff Adapter (24mm). Tool Cuff Adapter (38mm), Plastic Disposal Bag 10/pk., HEPA Filter, Damper Filter, Pre-Filter	Tool, Anti-Static Hose, Curved Pipe, Straight Pipe, Floor Nozzle, Crevice Nozzle, Plastic Disposal Bag 10/pk., Cloth Vacuum Filter	Tool, Anti-Static Hose, Tool Cuff Adapter (22mm), Tool Cuff Adapter (24mm), Tool Cuff Adapter (38mm), Plastic Disposal Bag 10/pk., HEPA Filter, Damper Filter, Pre-Filter	Tool, Anti-Static Hose, Tool Cuff Adapter (22mm), Tool Cuff Adapter (24mm). Tool Cuff Adapter (38mm), Plastic Disposal Bag 10/pk., HEPA Filter, Damper Filter, Pre-Filter

About Makita

Makita is a worldwide manufacturer of industrial power tools, pneumatics and power equipment, and offers a wide range of industrial accessories. Makita U.S.A., Inc. is located in La Mirada, California, and operates an extensive distribution network throughout the U.S. Call 800/4-MAKITA or visit makitatools.com.
