FOR IMMEDIATE RELEASE

The Makita® 18V X2 LXT®
Brushless Cordless Lawn
Mowers provide longer run
time and power equivalent
to gas lawn mowers.

Makita Expands Outdoor Power Equipment Line-Up with 3 Premium LXT® Cordless Lawn Mowers

The new 18V X2 LXT® (36V) Cordless Lawn Mowers
deliver the power equivalent to gas lawn mowers

March 16, 2020, La Mirada, CA – Makita U.S.A., Inc., the innovation leader in outdoor power equipment, power tools and accessories, has launched three new 18V X2 LXT® (36V) Brushless Cordless Lawn Mowers (XML06, XML07, XML08).

The 120mm purpose-built brushless motor in all three lawn mowers is Makita's largest brushless motor and delivers power equivalent to gas-powered mowers. Each lawn mower is powered by two 18V LXT Batteries with the added option to insert two additional batteries for extended run time.

"Because of new regulations, professional landscapers are seeking alternatives to gas-powered equipment, and Makita has the answer with more battery-powered solutions," said Romique Talton, senior product manager, outdoor power equipment. "No other company has a legacy of engineering experience in both gas-powered and cordless equipment like Makita, and that engineering legacy is at work inside these three powerful new lawn mowers. These lawn mowers are part of an expanding range of cordless outdoor power equipment that's revolutionizing the way work is done without the noise, emissions and maintenance of gas equipment."

The XML06, XML07, and XML08 feature a commercial-grade steel deck, IPX4 weather-resistant construction, and a single lever cutting height adjustment with 10 optional cutting heights. Each model has durable handles for loading on and off trucks, therefore do not fold. The exclusive blade design reduces drag and maintains speed when cutting.

The XML08 and XML07 offer a 21" cutting width and can cut up to 1/2 an acre using four 5.0Ah LXT Batteries, while the XML06 can cut up to 2/5 of an acre. These two cordless lawn mowers offer mulching, bagging and side discharge options for debris.

The XML06 and XML08 are both self-propelled models. The self-propel function makes mowing effortless with variable speeds from 1.5 MPH to 3 MPH.

Technology

For added durability, Makita's Extreme Protection Technology (XPT™). XPT is a series of integrated seals engineered to channel away dust and water for increased durability. Makita® Products equipped with XPT are engineered for increased durability and longer tool life.

Quiet Mode reduces noise by providing constant speed control. Quiet Mode sets RPMs to a certain speed, so there are no sudden increases in speed. With a constant speed, the noise from the mower also remains at a constant level. This is a benefit for cutting grass in a residential area, on a school campus, or other settings that are resistant to excessive noise.

18V LXT® System

Makita® LXT Cordless System, the world's largest cordless tool system powered by 18V lithium-ion slide-style batteries, takes a user from power tools to outdoor power equipment to get the job done. Makita 18V LXT Batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.

Benefits of Cordless Outdoor Power Equipment

Makita LXT Cordless Power Equipment eliminates the hassles of gas with zero emissions, lower noise, and reduced maintenance. The cordless lawn mowers operate at a lower noise level, providing user comfort and preventing a disruption for neighbors or nearby businesses. With no need for gas or oil, the battery-powered lawn mowers require less maintenance and have zero emissions.

Specifications

Model	XML08PT1	XML08Z
Description	18V X2 LXT® (36V) Lithium-Ion Brushless Cordless 21" Self-Propelled Lawn Mower Kit w/ 4 Batteries (5.0Ah)	18V X2 LXT® (36V) Lithium-Ion Brushless Cordless 21" Self-Propelled Lawn Mower, Tool Only
Cutting Width	21"	21"
Deck Width	22"	22"
Cutting Height Range	1-1/4" – 4"	1-1/4" – 4"
Bag Capacity (Bushels)	2	2
No Load Speed	2,800 RPM	2,800 RPM
Dimensions	67-1/2" x 23-1/4" x 43"	66-1/2" x 23-1/4" x 43"
Net Weight	94 lbs. (with 4 batteries)	88.4 lbs. (without battery)
Includes	Tool, (4) 18V LXT 5.0Ah Battery, 18V LXT Dual-Port Charger, 21" Lawn Mower Blade, Grass Catcher Bag, Mulching Plug, Side Discharge Chute	Tool, 21" Lawn Mower Blade, Grass Catcher Bag, Mulching Plug, Side Discharge Chute

Model	XML07PT1	XML07Z
-------	----------	--------
