FOR IMMEDIATE RELEASE

The new 18V LXT® Cordless Blower (XBU05, top) and Floor Blower (XBU06, bottom) deliver fast speeds of air velocity for efficient clean-ups.

## TWO NEW MAKITA 18V LXT® CORDLESS BLOWERS DESIGNED FOR FAST CLEAN-UPS

**October 20, 2020, La Mirada, CA** – Makita U.S.A., Inc., the innovation leader in cordless power tool technology and cordless outdoor power equipment, is pleased to announce the new 18V LXT® Cordless Blower (XBU05) and Floor Blower (XBU06). These new battery-powered blowers provide instant start-ups for quick clean-up applications, with less weight for increased mobility.

The XBU05 packs power in a compact size. At about 4 lbs. and 20-3/8" long, the blower reaches a maximum air velocity of 219 MPH. A user controls the power and manages run time with the variable speed trigger. This blower is an ideal addition to any workspace and is available as a kit (XBU05ST1) or tool only (XBU05Z).

The XBU06 features an extended pipe to direct air closer to the ground. A compact design and rubberized soft grip handle offer increased user comfort. It has a Makita-built motor that delivers speeds up to 113 CFM and 152 MPH.

Makita® LXT Cordless Blowers eliminate the hassles of gas with lower noise, reduced maintenance and zero emissions. The blowers operate at a lower noise level, providing user comfort and preventing a disruption for neighbors or nearby businesses. With no need for gas or oil, the blowers require reduced maintenance and have zero emissions allowing indoor clean-ups.

### 18V LXT® System

Makita LXT Cordless System, the world's largest cordless tool system powered by 18V lithium-ion slide-style batteries, takes a user from power tools to outdoor power equipment to get the job done. Makita 18V LXT Batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.

### Star Protection Computer Controls

Makita 18V LXT batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger. For improved tool performance and extended

battery life, Makita created Star Protection Computer Controls™. Star Protection is communication technology that allows the Star Protection-equipped tool and battery to exchange data in real time and monitor conditions during use to protect against overloading, over-discharging and overheating.

### Specifications

Model	XBU05ST1	XBU05Z
Description	18V LXT Lithium-Ion Cordless Blower Kit (5.0Ah)	18V LXT Lithium-Ion Cordless Blower, Tool Only
Max. Air Volume (CFM)	113	113
Max. Air Velocity (MPH)	219	219
Sound Pressure	83 dB(A)	83 dB(A)
Overall Length	20-3/8"	32-1/2"
Battery	18V Lithium-Ion	18V Lithium-Ion
Net Weight	4.1 lbs.(with battery)	2.7 lbs. (without battery)
Includes	Tool, 18V LXT Charger (DC18SD), 18V LXT 5.0Ah Battery (BL1850B), Rubber Blower Nozzle (123245-4)	Tool, Rubber Blower Nozzle (123245-4)

Model	XBU06Z
Description	18V LXT Lithium-Ion Cordless Floor Blower, Tool Only
Max. Air Volume (CFM)	113
Max. Air Velocity (MPH)	152
Overall Length	33"
Battery	18V Lithium-Ion
Net Weight	3.2 lbs. (without battery) 4.6 lbs. (with battery, sold separately)
Includes	Tool, Floor Nozzle (191G09-6)

### About Makita

Makita is a worldwide manufacturer of industrial power tools, pneumatics and power equipment, and offers a wide range of industrial accessories. Makita U.S.A., Inc. is located in La Mirada, California, and operates an extensive distribution network throughout the U.S. Call 800/4-MAKITA or visit [makitatools.com](http://makitatools.com).
