The new 1" SDS-PLUS AVT® Rotary Hammer features an efficient HEPA Dust Extractor and D-Handle with a powerful 8 AMP motor that delivers 2.1 ft.lbs. of impact energy to handle the most demanding applications.

FOR IMMEDIATE RELEASE

MAKITA RELEASES NEW D-HANDLE ROTARY HAMMER WITH ON-BOARD DUST EXTRACTION

New tool combines a powerful motor with HEPA filtration, and low vibration

April 17, 2024, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released the 1" SDS-PLUS AVT® Rotary Hammer, with HEPA Dust Extractor with D-Handle (HR2663). It features a powerful 8 AMP motor that delivers 2.1 ft.lbs. of impact energy to handle the most demanding applications.

“The new 1" SDS-PLUS AVT® Rotary Hammer delivers power and performance where concrete pros need it most,” Said Rufus Richardson, senior product manager for commercial products, Makita U.S.A., Inc. “The HR2663 gives the user an OSHA Compliant Hammer with a d-shaped handle that allows use in overhead drilling applications. It can also be used for horizontal and downward anchor setting applications. The versatility of the HR2653 will further expand Makita’s Rotary Hammer Portfolio.”

Less Vibration

The HR2663 is equipped with Makita Anti-Vibration Technology (AVT®), which is an internal counterbalance system for significantly less vibration. The AVT® system is essential for users who are running a rotary hammer for longer periods of time to reduce operator fatigue. AVT® means significantly less vibration with no compromise in power and performance.

HEPA Dust Extraction, OSHA Compliance

The included HEPA Dust Extractor is OSHA Table 1 compliant for Exposure to Respirable Crystalline Silica (rule 1926.1153). The on-board dust extractor includes a filter cleaning mechanism designed to help maintain optimum suction efficiency. The dust extractor is activated by the tool for operator convenience and is equipped with an efficient HEPA filtration system that captures 99.97% of particulates .3 microns and larger. It has a transparent dust container with an accurate level indicator of collected material for added convenience.

Power and Performance

The HR2663 has an 8 AMP motor that delivers 2.1 ft.lbs. of impact energy to handle the most demanding applications. The three modes of operation offers “rotation only”, “hammering with rotation” or “chipping only” for multiple applications. Modes can be easily changed with a recessed hammer-function selector, which is located below the gear housing for improved durability.

Convenience Features

Convenience features include an ergonomic pistol grip handle with a rubberized soft grip provides increased operator comfort. There is a retractable hook that allows the tool to remain close by but never in the way. It also features a depth stop adjustment that allows drilling up to 7-1/2" deep for increased capacity.

Specifications

Description	1" SDS-PLUS AVT® Rotary Hammer, w/ HEPA Dust Extractor (D-handle) (HR2663)
Form Factor:	Corded
Bit Type:	SDS-PLUS
AMPS:	8
Maximum Capacity (Concrete Drilling):	1"
Optimum Range (Concrete Drilling):	1/4" - 5/8"
Max. Hole Depth:	7-7/16"
Max. Capacity (Concrete Drilling w/ Core Bit):	3-1/8"
Impact Energy (ft.lbs.)	1.6
Impact Energy (Joules):	2.2 J
Blows Per Minute (Variable Speed):	0 - 4,500 BPM
No Load Speed (Variable Speed):	0 - 1,100 RPM
HEPA filter:	Yes
Container Hole Count Capacity:	36 holes of dimension 3/8"x2-3/8"
Filter Life (Approximate Container Fillings):	200
Vibration Control:	Yes
Vibration (m/s²):	9.5
Sound Rating (decibels)	90 dB(A)
Overall Length:	18-7/8"
Cord Length (ft):	13.1'
Net Weight:	9.7 lbs.

About Makita

Makita is a worldwide manufacturer of industrial power tools, power equipment, pneumatics, and cleaning solutions that offer a wide range of industrial accessories. Makita U.S.A., Inc. is located in La Mirada, California, and operates an extensive distribution network throughout the U.S.A. With over 50 years in the United States and over 100 years worldwide, Makita utilizes experience and expertise to manufacture best-in-class solutions.
