FOR IMMEDIATE RELEASE

Makita is releasing two new corded drills that are ideal for a wide variety of wood and metal drilling applications. The DP4021 features a keyless chuck, the DP4020 features an all-metal keyed chuck.

MAKITA RELEASES NEW TWO NEW CORDED DRILLS

New 5.5 AMP drills offer improved drilling performance in a wide variety of materials

November 1, 2024, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released two new corded drills to the already expansive line of corded hand tools. A powerful motor and variable speed make these two drills ideal for improved drilling performance in a wide variety of materials. The new drills are ideal for users working near a power source or who prefer a corded drill.

- 1/2" Drill (DP4020) – With a powerful motor and an all-metal chuck, the DP4020 is an ideal solution for pros in all types of industries
- 1/2" Drill with Keyless Chuck (DP4021) – The DP4021 features a keyless check for faster accessory changes.

Fast Drilling Speeds

Both the DP4020 and the DP4021 feature a 5.5 AMP motor giving these two new drills the power to offer pros in a variety of industries improved drilling performance in a variety of materials. Both versatile drills offer drilling capacities of 1/2" in steel and 1- 3/16" in wood.

Performance Features

These two new drills give users variable speed that offers from 0-3,000 RPM for drilling into a variety of materials. The large trigger allows the user to control drilling speeds.

Convenience Features

Both the DP4020 and the DP4021 feature an in-line handle design for better accuracy, all-ball bearing construction for durability and longer tool life, and a large, recessed lock-on button. The drills feature a conveniently located reversing switch that allows the user to choose between forward and reverse.
