The new 40V max XGT® Brushless Cordless StarlockMax® Oscillating Multi-Tool (GMT01) is engineered for the ultimate performance and comfort.

FOR IMMEDIATE RELEASE

MAKITA RELEASES NEW XGT® StarlockMax® OSCILLATING MULTI-TOOL

New StarlockMax® Oscillating Multi-Tool is engineered for the ultimate in performance and comfort

January 3, 2025, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released the 40V max XGT® Brushless Cordless StarlockMax® Oscillating Multi-Tool (GMT01). The new Oscillating Multi-Tool is engineered for the ultimate performance and comfort.

Higher Speeds, Lower Vibrations

The Oscillating Multi-Tool features a variable speed control dial allowing adjustments from 10,000 to 20,000 oscillations per minute (OPM) enabling the user to match the speed of the tool to the application. It features Anti-Vibration Technology (AVT®) for up to 85% reduced vibration.

Accessories,

The GMT01 is compatible with StarlockMax®, StarlockPlus®, and Starlock® accessories. It delivers a 3.6° oscillation angle that is engineered for faster, more aggressive cutting and sanding. It features a small diameter barrel grip for improved handling and added operator comfort.

Convenience Features

Convenience features include a large on/off slide switch with lock-on button for operator convenience, a built-in L.E.D. light that illuminates the work area, and soft start feature for smooth start-ups. The GMT01 features a compact and ergonomic design at only 12" long.

XGT®: One System of Cordless Equipment and Tools

The new Multi-Tool is part of Makita XGT®, an expanding system of 40V max and 80V max cordless equipment and tools. XGT® gives users one system, from core handheld tools like drills and impact drivers to equipment-grade products including high-capacity saws, rotary hammers, and power cutters – all powered by 40V max XGT® batteries. The expanding XGT® System will offer 125+ products in 2024.
