FOR IMMEDIATE RELEASE

Makita U.S.A has released the new 18V LXT® 320 PSI 0.7 GPM Power Cleaner (XWH02). It delivers power and performance without the hassle of a cord. It features a self-priming design that can draw from a freshwater source using a siphoning hose or be attached to a garden hose.

MAKITA RELEASES NEW 18V LXT® POWER CLEANER

Users have more options for convenient washing of concrete, wood decks, brick surfaces, and more

May 5, 2025, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released a portable cleaning solution with the new 18V LXT® Power Cleaner (XWH02). It features a self-priming design that can draw from a freshwater source using a siphoning hose or be attached to a garden hose.

It's powered by the same fast-charging 18V batteries that are compatible with 350+ LXT® products.

Water Sources

The LXT® Power Cleaner is designed for use as a siphon or with a hose bib connection. It features a self-priming siphon hose that draws water from freshwater sources or water tanks. A third option is to use the Bottle Adapter (adapter not included) which allows the Power Cleaner to draw water from a 2-liter bottle.

Spray Patterns and Run Time

The XWH02 features a 5-in-1 spray nozzle that changes the spray pattern between 0°, 15°, 25°, 40° and Shower. It features two power levels for power and run time management. It also features up to 80 min of run time with a fully charged 18V LXT® 5.0Ah battery (battery sold separately).

Convenience Features

Convenience features include a Quick Connect Design for easy accessory changes, and a protective cover that helps prevent battery contamination under a range of conditions.

Makita® LXT® System

The new Power Cleaner is part of Makita's expanding LXT® system, the world's largest cordless tool system powered by 18V Lithium-Ion batteries. Makita 18V LXT® batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.
